

CATEGORY: **Hot Stabs Hydraulic Actuator Override Hot Stab**

Engineered Tooling Solutions ***FAST***

The Hydraulic Actuator Override Hot Stab two-port tool was developed for a pipeline with 30” Sub Sea Isolation Valve (SSIV) fitted with a hydraulically or diver operated actuator at each end.

Each valve and actuator is fitted with three hot stabs that allow transfer of fluids by a ROV or diver for maintenance and control purposes.

The hot stabs are upgraded to industry standard components suitable for use by divers or ROV.

The hot stab designs are based on ISO 13628-8:2002 10 ksi type A, dual and single port specifications. Dummy plugs can be fitted to all female ports when not in use.

Features:

- 1 x 1-port ISO hot stab receptacle
- 1 x 2-port ISO hot stab receptacle
- Acetal parking receptacle
- Hot stab receptacle material is Nitronic 50

Specifications:

Dimensions (mm)	270 (L) x 355 (W) x 776 (H)
Weight in Air	30 kg
Depth Rating	3000 msw
Pressure Rating	5,000/ 0,000 psi (345/690 bar)
End Ports	½” Swagelok
